DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Seaman teaches a method for convertible financial instruments including a bond portion and an embedded option portion. The bond portion is redeemable at a maturity date similar to a traditional bond.

Seaman does not teach a derivative instrument coupled to but separate from, the debt security by providing an option to an issuer of the debt security to purchase shares of the equity security at a select price at a future date, wherein the derivative instrument may be canceled by the issuer prior to the future date and the issuer is obligated to make payments for said derivative on an installment basis, with future payment obligations of the issuer extinguished upon cancellation with no penalty to the issuer for the cancellation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
